

Between Generations gasi Summer School

4th Group Analytic Society International Summer School in Group Analysis

18-22 July 2018

Ljubljana

Generations are certain kinds of groups with certain kinds of cultures and logic of succession: the boundaries between them, however, are fluid. There's always room for uncertainty about which generation we belong to: one looks forward and backwards for clues to his role in life, as if caught between generations.

Let's try to see where we're at -
between generations.

On behalf of the organizing committee, we would like to invite you to participate in the 4th Summer School in Ljubljana. We hope that the Summer School will be fruitful and serve its purpose of contributing to the development of group analytical knowledge and culture. In a common endeavor of exploring between generations, we will have the opportunity to continue our growth and development both personally and professionally. We look forward to meeting you in Ljubljana.

The Summer school is a a medium sized symposium (up to 100 participants), by content and form group analytical. It is intended for all generations of professionals, who work with groups in any setting (not only therapeutic) or have an interest to do so. Join us in a not too formal atmosphere, where we can learn about group and social related phenomena through joint experience.

information

In order to make the Summer School accessible to as many participants as possible, we have kept the fees to a minimum. We have budgeted for a number of reduced fees, but we ask applicants who are able to pay the higher fee to please do so.
