

Ljubljana  
Clinical Neurophysiology Symposium 2019

50<sup>th</sup> Anniversary of the  
Institute of Clinical Neurophysiology

Faculty of Medicine,  
Korytkova 2, Ljubljana

FINAL  
PROGRAMME

Ljubljanski simpozij klinične nevrofiziologije 2019  
50-letnica Kliničnega inštituta za klinično nevrofiziologijo

Friday, 20 September

08:30 - 10:30	Hall 1	SINAPSA Neuroscience Conference '19 mini-symposium <b>Molecular basis of neurodegeneration</b> Boris Rogelj, <b>RNA-protein complexes and complications in ALS and FTD</b> Eva Žerovnik, <b>Visualization of amyloid pores and characterization of down-stream processes</b> Nina Vardjan, <b>Astroglial TDP-43 inclusions reduce <math>\beta</math>-adrenergic cAMP signaling and dysregulate metabolism</b> Luc Dupuis, <b>Involvement of FUS in amyotrophic lateral sclerosis and fronto-temporal dementia: insights into pathophysiological mechanisms and treatment</b>
10:30 - 11:30	Foyer	<b>Welcome reception</b>
11:30 - 12:00	Hall 2	Blaž Koritnik, Milan R. Dimitrijević, <b>Opening</b>
12:00 - 13:00	Hall 2	<b>Janez Faganel memorial lecture</b> Janez Zidar, <b>Fifty years of the Ljubljana Institute of Clinical Neurophysiology and 60 years of clinical neurophysiology in Slovenia</b>
13:15 - 14:00	Hall 1	Claudio Bassetti, <b>Sleep research and sleep medicine: what comes next?</b>
14:00 - 15:00	Foyer	<b>Lunch</b>
15:00 - 15:30	Hall 2	Erik Stålberg, <b>The developments in understanding and testing of myasthenia during the lifetime of the Institute</b>
15:30 - 16:00	Hall 2	Vedran Deletis, <b>Intraoperative Neurophysiology: Where we are and where we are heading</b>
16:00 - 16:30	Hall 2	Albert Ludolph, <b>Spinal Muscular Atrophy - has the future arrived?</b>
16:30 - 17:00	Hall 2	Petr Marusič, <b>EEG and epilepsy</b>
17:00 - 17:30	Foyer	<b>Coffee break</b>
17:30 - 18:15	Hall 1	SINAPSA Neuroscience Conference '19 plenary talk David L. Katz, <b>Lifestyle is the Medicine. What is the spoon?</b>
20:00	Švicarija, Tivoli Park,	<b>Dinner</b>

## FINAL PROGRAMME

Ljubljanski simpozij klinične nevrofiziologije 2019  
50-letnica Kliničnega inštituta za klinično nevrofiziologijo

### Saturday, 21 September

08:30 - 09:00	Hall 2	David B. Vodušek, <b>Electrophysiology of the pelvic floor</b>
		Mini-symposium, <b>Meeting of Clinical Neurophysiology Technicians</b> Eva Živanovič, <b>Prognostic value of EEG in patients after cardiac arrest</b>
09:00 - 10:30	Hall 2	Polona Klinar, Patricija Kranjc, <b>Respiratory management of patients with neuromuscular disease: 11 years of experience</b> Gregor Omejec, <b>Ultrasonography of peripheral nerves and muscles - a useful tool in research and clinical practice</b>
10:30 - 11:00	Foyer	<b>Coffee break</b>
		Mini-symposium, <b>Human neurophysiology: science and clinical practice</b> Milan R. Dimitrijević, <b>Babinski sign of clinical neurology and human neurophysiology of the upper motor neuron</b>
11:00 - 12:30	Hall 2	Leja Dolenc Grošelj, <b>Effect of bedrest and hypoxia on sleep architecture and respiration during sleep</b> Mateja Baruca, <b>Clinical characteristics of AChR seropositive myasthenia gravis patients with normal single fibre EMG</b>
12:30 - 13:00	Hall 2	Markus Kofler, <b>Blink reflex and beyond</b>
13:15 - 14:00	Hall 1	Ammar Al-Chalabi, <b>Genetics and ALS - where are we now?</b>
14:00 - 15:00	Foyer	<b>Lunch</b>
		Biogen satellite symposium, <b>Treatment of spinal muscular atrophy with nusinersen</b>
15:00 - 15:45	Hall 2	Damjan Osredkar, <b>One-year follow-up of children and young adults with SMA treated with nusinersen</b> Blaž Koritnik, <b>Treatment of spinal muscular atrophy with nusinersen in adults - new hope and first experience</b>
		<b>Andrej O. Župančič memorial lecture</b>
16:00 - 16:45	Hall 1	Richard S. Frackowiak, <b>How are advances in neuroimaging helping us understand the human brain</b>
