COURSES 2013

Advanced Neuroscience Courses

May 4 - 12

Neural Stem Cells in Development
and for Brain Repair

Coordinator: E. Cattaneo (Italy)

May 18 - 26

Synaptic Plasticity and Neural Circuit
Remodeling

Coordinator: R.C. Malenka (USA)

June 1 - 9

Neuroepigenetics

Coordinator: A. Guidotti (USA)

June 15 - 23

Protein Aggregation Spectrum Disorders

Coordinator: M.T. Heneka (Germany)

July 20 - 28

Cellular and Systems Mechanisms of Learning
and Memory

Coordinator: S. Tonegawa (USA)

August 3 - 11

Molecular Signaling in the Aging Synapse
Joint Course with the Center for Excellence in
Neuroscience, LSUHSC, New Orleans (USA)

August 31 - September 8

Stress and Mental Illness: From Genomics
to Imaging

Coordinator: C.B. Nemeroff (USA)

September 28 - October 6

Novel Perspectives for Basal Ganglia Disorders

Coordinator: J.H. Kordower (USA)

October 12 - 20

Inflammation: Emerging Therapeutic Targets
in Psychiatry

Coordinator: S.H. Kennedy (Canada)

October 19 - 26

Autophagy and Neuroprotection

Coordinator: A.M. Cuervo (USA)
